

Changeover Listing Belt Numbers

Showing Competitive Numbers With Our Corresponding Belt Numbers

The numbers shown in the following listings were determined by comparing the applications and physical characteristics of the product. This is a guide for changing over stocks to our numbers, and does not mean that the competitive number shown will fit all applications recommended for our number. If a customer asks for a product to replace a product of another brand, do not use this list. Ask for the make, model, year and engine size on which it is to be used, and refer to the alphabetical listing to determine the proper replacement.

Changeover Listing Belt Tensioners, Pulleys & Alt. Decoupler Numbers

Showing Competitive Numbers with Our Corresponding Numbers

The part numbers shown in the following listings were determined by comparing the applications and physical characteristics of the product. This is a guide for changing over stocks to our numbers, and does not mean that the competitive number shown will fit all applications recommended for our number. If a customer asks for a product to replace a product of another brand, do not use this list. Ask for the make, model, year and engine size on which it is to be used, and refer to the alphabetical listing to determine the proper replacement.

Changeover Listing Camshaft & Crankshaft Oil Seal Numbers

Showing Competitive Numbers with Our Corresponding Part Numbers

The part numbers shown in the following listings were determined by comparing the applications and physical characteristics of the product. This is a guide for changing over stocks to our numbers, and does not mean that the competitive number shown will fit all applications recommended for our number. If a customer asks for a product to replace a product of another brand, do not use this list. Ask for the make, model, year and engine size on which it is to be used, and refer to the alphabetical listing to determine the proper replacement.

Changeover Listing Coolant Hose Numbers

Showing Competitive Numbers With Our Corresponding Coolant Hose Numbers

The numbers shown in the following listings were determined by comparing the applications and physical characteristics of the product. This is a guide for changing over stocks to our numbers, and does not mean that the competitive number shown will fit all applications recommended for our number. If a customer asks for a product to replace a product of another brand, do not use this list. Ask for the make, model, year and engine size on which it is to be used, and refer to the alphabetical listing to determine the proper replacement.

Changeover Listing Water Pump Numbers

Showing Competitive Numbers With Corresponding Gates Water Pump Numbers

The numbers shown in the following listings were determined by comparing the applications and physical characteristics of the product. This is a guide for changing over stocks to our numbers, and does not mean that the competitive number shown will fit all applications recommended for our number. If a customer asks for a product to replace a product of another brand, do not use this list. Ask for the make, model, year and engine size on which it is to be used, and refer to the alphabetical listing to determine the proper replacement.

Changeover Listing Automotive Thermostat, Gasket and Seal Numbers

Showing Competitive Numbers With Our Corresponding
Thermostat, Gasket and, Seal Numbers

The numbers shown in the following listings were determined by comparing the applications and physical characteristics of the product. This is a guide for changing over stocks to our numbers, and does not mean that the competitive number shown will fit all applications recommended for our number. If a customer asks for a product to replace a product of another brand, do not use this list. Ask for the make, model, year and engine size on which it is to be used, and refer to the alphabetical listing to determine the proper replacement.
