

Passat

Well, the babysitter's
gonna want a raise now.

Drivers wanted. 

A rather handsome base model.

Control freak? You'll like this.

4MOTION™

► 4MOTION™

An intelligent form of all-wheel drive technology that brings to the road an even sweeter driving experience. It's based on the principle that the better your car is connected to the road, the better performance your car will give you. **It instantaneously manages power and traction to wherever they're needed most.** Let's say a tire momentarily loses some grip and starts to slip: the other three will compensate and immediately work to get the car back on track. No driver involvement is needed, so you're free to just concentrate on enjoying the drive. You get improved control and therefore added safety. So not only can you enjoy coming out of those turns with extra precision and polish, you can steer around unexpected trouble, too. Icing on the cake? It works non-stop.

4MOTION™

Safely keeps you
where you should be.
On the road.

› Available on Passat GLS V6 and GLX sedan and wagon

Starting at \$27,075* M.S.R.P.

*Prices exclude taxes, destination charges, optional equipment, registration and dealer charges. Emission charges may vary by state. Dealer sets actual price.

Drivers wanted! 

Sleep easy at night.
