Seat children only in the rear, using restraints that are appropriate for their size and age. **Not available with 4MOTION™.
4MOTION™

Control freak? You’ll like this.

4MOTION™
Safely keeps you where you should be.
On the road.

Available on Passat GLS V6 and GLX sedan and wagon
Starting at $27,075* M.S.R.P.

4MOTION™
An intelligent form of all-wheel drive technology that brings to the road an even sweeter driving experience. It’s based on the principle that the better your car is connected to the road, the better performance your car will give you. It **instantaneously manages power and traction to wherever they’re needed most.** Let’s say a tire momentarily loses some grip and starts to slip: the other three will compensate and immediately work to get the car back on track. No driver involvement is needed, so you’re free to just concentrate on enjoying the drive. You get improved control and therefore added safety. So not only can you enjoy coming out of those turns with extra precision and polish, you can steer around unexpected trouble, too. Icing on the cake? It works non-stop.

*Prices exclude taxes, destination charges, optional equipment, registration and dealer charges. Emission charges may vary by state. Dealer sets actual price.
Sleep easy at night.

**Warranty, Roadside Assistance and Safety**
