Audi/VW Pro-Mount Motor Mounts

Part Number	Description
ST-B5-EMT02	Pro-Mount Motor Mounts

Features

- 2 Firmness levels available
- Factory fitment
- Heavy duty durable casing
- Fully isolated mounts

Description

This motor mount set is part of the new störn line of performance enhancements for the Audi and VW vehicles. This kit is designed as an upgrade to the soft factory motor mounts which come standard with these vehicles. These heavy duty motor mounts are offered in two firmness levels to suit any performance application.

Low and medium durometer polyurethane is used to help keep excessive vibrations to a minimum while still providing excellent strength and damping characteristics. These mounts maintain full isolation between the engine and chassis limiting the transfer of vibrations into the cabin.

B5 Fits: 1996-01 Audi A4, S4, 1998-05 Passat

B6/B7 Fits: 2002-08 Audi A4, S4

C5 Fits: 1998-04 Audi A6

Audi/VW Adjustable Upper Control Arms

Part Number	Description
ST-CAKIT01	Upper Control Arm Kit

Features

- Provides adjustable camber/caster
- Factory like ride
- Direct replacement
- Black anodized finish

Description

This adjustable control arm kit is part of the new stern line of performance products for the Audi and VW vehicles. These are direct replacement arms for the stock front upper control arms. Our arms add adjustability to fine tune camber and caster settings on the vehicle's multi-link suspension. These utilize factory bushings to retain maximum road comfort and eliminate noise and harshness.

Custom outer ball joints feature teflon linings and are sealed to provide years of maintenance free operation. Replaceable bushings will make these the last arms you'll ever need!

B5 Fits: 1996-01 Audi A4, S4, 1998-05 Passat

B6/B7 Fits: 2002-08 Audi A4, S4

C5 Fits: 1998-04 Audi A6

Audi/VW 1.8T Manual Transmission Mount

Part Number	Description
ST-B5-TRMT01	B5 Manual 1.8T Left Side
ST-B5-TRMT02	Bushing Repair Kit

Features

- Polyurethane Bushings
- Laser cut washers
- All steel, welded construction
- Powder coated for protection
- All new hardware
- Replaceable bushings
- Factory fitment

Description

This manual transmission mount is part of the new st€rn line of performance products for the Audi and VW vehicles. This mount is designed as a factory replacement engineered to give you maximum control over drivetrain movement. Less drivetrain movement translates to greater drivetrain efficiency.

High durometer polyurethane bushings are used to maximize control while maintaining a reasonable level of cabin NVH suitable for daily driving. Replaceable bushings will make this the last mount you'll ever need! This high performance mount offers a factory level fitment and retains all factory mounting positions. No modifications are necessary as this truly is a bolt on replacement.

Replaces Audi/VW : 8D0 399 151 H
Fits: 1997-01 Audi A4 1.8T Manual Transmission
1998-05 VW Passat 1.8T Manual Transmission

Audi / VW Front Engine Snub Mount

Part Number	Description
ST-B5-EMT01	B5 Snub Mount
ST-B6-EMT01	B6/B7 Snub Mount

Features

- High Durometer Polyurethane
- Reduces drivetrain movement
- Direct replacement
- Makes shifting more secure

Description

This engine snub mount is part of the new störn line of performance products for the Audi and VW vehicles. This mount is a direct replacement item that helps reduce engine movement. By utilizing a high durometer polyurethane material, this mount maintains control of the engine movement without any noticeable side effects. On/off throttle transitions are much smoother, and shifting will feel more secure with quick and easy gear engagements.

B5 Fits: 1997-01 Audi A4, S4, 80, 90

B6/B7 Fits: 2002+ Audi A4, S4

Audi Rear Differential Bushing Kit

Part Number	Description
ST-B5-DMT01	Differential Bushing Kit

Features

- Polyurethane Bushings
- Factory fitment
- Quick & easy installation
- Custom engineered

Description

This differential bushing kit is part of the new störn line of performance products for the Audi and VW vehicles. This kit is designed as an upgrade to the soft factory differential bushings found on quattro equipped vehicles. These upgraded bushings are engineered to reduce differential movement which translates to a more efficient drivetrain.

High durometer polyurethane bushings are used to maximize control with precision aluminum sleeve bearings for a perfect fit. Comes complete with installation instructions and a complete set of bushings. Quick and easy installation makes this a perfect upgrade for performance enthusiasts.

Replaces Audi/VW: 8A0 599 257
1996-01 Audi A4 Quattro
2000-02 Audi S4 Quattro
1993-95 Audi 80, 90 Quattro

Audi Rear Differential Power Ring Insert

Part Number	Description
ST-B5-DMT02	Differential Power Ring Insert

Features

- Aircraft Aluminum 6061-T6 Construction
- Black anodized finish
- Custom cut Neoprene gasket
- Custom engineered
- Stainless steel hardware

Description

This differential Power Ring is part of the new störn line of performance products for the Audi and VW vehicles. This kit is an insert used on the factory rear differential mount found on quattro equipped vehicles. This insert is engineered to eliminate the “clunk” often associated with excessive movement from the rear differential.

The durable Neoprene gasket helps to eliminate any NVH the significantly stronger new mount may introduce. Stainless steel hardware and durable black anodized finish will make for a long lasting investment.

Fits:

1996-01 Audi A4 Quattro

2000-02 Audi S4 Quattro

1993-95 Audi 80, 90 Quattro

Audi/VW Rear Subframe Reinforcement Brace

Part Number	Description
ST-8P-SBR01	Subframe Reinforcement Brace

Features

- Reduces chassis/subframe flex
- Improves handling & steering response
- Powder coated for durability
- Quick & easy installation

Description

This rear subframe brace is part of the new störn line of performance products for the Audi and VW vehicles. This bar installs on the rear subframe and improves the stiffness by triangulating the rear suspension control arms to the subframe. This improvement can be felt with more crisp steering response, more secure handling through corners, and better response when combined with larger aftermarket anti-roll bars.

This bar is a direct fit and requires no drilling or other modifications to the subframe. It provides great clearances with aftermarket anti-roll bars and aftermarket exhaust systems. Comes complete with all necessary hardware, and a great satin black powder coated finish for durability.

Fits
2005.5+ VW Jetta, GLI
2006+ VW GTI, Rabbit
2006+ Audi A3

Audi/VW Transmission Support Insert

Part Number	Description
ST-8P-TRMT01	Transmission Support Insert

Features

- Reduces engine and transmission motion
- Improves throttle response
- Powder coated for durability
- Quick & easy installation

Description

This rear subframe brace is part of the new störn line of performance products for the Audi and VW vehicles. During hard acceleration the engine and transmission easily rotate and shift on the stock factory rubber bushings. This transmission support insert helps reduce this movement by stiffening the soft factory rubber mount.

This insert installs quickly and easily and makes an immediate improvement with on/off throttle situations, as well as hard accelerations. Comes complete with all new hardware and powder coated for a long lasting finish.

Fits

2005.5+ VW Jetta, GLI
2006+ VW GTI, Rabbit, R32
2006+ VW Passat
2006+ Audi A3
2007+ Audi TT

WARRANTY

1. Limited Lifetime Warranty

Stern products are covered by a limited lifetime warranty. The warranty covers the product(s) against factory defects in material and workmanship when installed by a qualified automotive mechanic and used in a vehicle for which the product is intended. This warranty is extended only to the original purchaser who retains ownership of the vehicle on which the product(s) was originally installed. Associated ancillary components such as nuts, bolts, washer, bushings are limited to and covered under a 12 month warranty for material defects and workmanship.

2. Your Remedy

Upon verification of warranty coverage, Stern, at its discretion will replace defective product(s) without charge, or refund the purchase price of the product only.

3. Warranty Claim Procedure

To make a claim under this warranty, the consumer should contact the Stern dealer/distributor that the product(s) was originally purchased from. The dealer/distributor will contact Stern for a return authorization and return the product(s) in question back to Stern. Once the merchandise is received at Stern, Stern will evaluate the product(s). The consumer is responsible for any costs of returning the product(s) in question to the Stern dealer, as well as all costs incurred for removing and installing the product(s) in the vehicle. Stern does not warranty labor costs. Upon verification of defective product(s) under the warranty, Stern will either repair or replace the product(s) without charge to the consumer.
